*We are eliminating the use of disinfecting wipes and baby wipes in our classroom. The Norwex Cloth is a microfiber cloth that eliminates bacteria and dirt with the use of only water.. Each child will have their own Norwex Enviro cloth to clean and remove bacteria from surfaces: they will also get to take this cloth home at the end of the school year. For more information about Norwex, you can visit www.norwex.com. If you have any questions, please do not hesitate to ask. We have used Norwex for the last few years and have had great success! I am very excited to continue to eliminate the use of chemicals and cut down on waste! Please bring the \$5 in the form of cash or check to open house (checks can be made out to SBA). If you still have a cloth from last year, you can bring that instead of paying the \$5.
